COCOANUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in sook condition, the less soap you use

Most soaps and prepared shampoor

Most soaps and prepared shampoor centain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsihed cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooning, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rish, creamy lather, and cleanses the hur and scalp thoroughly. The lither rinses out easily, and removes every particle of dust, dirt, dindeuff and excessive oil. The hur dries quickly and eventy, and it leaves it time and silky, bright, fluffy and easy to come the same and silky, bright, fluffy and casy and silky, bright, fluffy and casy

THE motorists who are getting the most out of their machines, summer and winter, are the fellows who regularly and consistently feed Atlantic Gasoline. Because, Atlantic "Gas" has the gait and get-there spirit that puts pep and power behind a piston—that takes figures off your "gas" bill and puts them on your speedometer, where they belong.

Atlantic Gasoline has a uniform "boiling point" that assures every new lot of "gas" to be exactly like the last you put in. Your carburctor, once adjusted, stays put.

Atlantic "Gas" has a hyeliness that begets easy starting on all kinds of days, and it has more mileage to the cubic inch than ordinary gasolin's. made from the finest crude oil that flows—made to a definite standard by the oldest and largest refiners in the State. That's why the merry mob of motorists ask for "Atlantic Gasoline," by name, instead of trusting to luck with "Give me five gallons of 'gas',"

All good garages sell Atlantic Garoline, and Atlantic trucks and tankers deliver any quantity, anywhere, Allanhe POLARINE is the 100-percent lubricant that flows freely at all temperatures—It keeps upkeep DOWN.
